sunbrella®

2013-2014 AWNING AND MARINE FABRICS

Awnings made with Sunbrella® fabric provide protection from the elements and extend your living space. They can even lower your energy bill. Try choosing a light fabric to get interior sun protection without darkening the room.

! SUNBRELLA SILICA FABRICS ARE DISTINCTLY DIFFERENT FROM FRONT TO BACK. EITHER SIDE IS USABLE. PLEASE BE CONSISTENT IN ORIENTATION.

Designs that have sea legs We're as passionate about the water as you are. And it shows. Besides creating the #1 trusted marine fabric in the world, we offer a wide variety of fabrics from Sunbrella Clarity to Sunbrella Supreme, to marine-grade Sunbrella, perfect for your bimini or dodger. So whether power or sail, above deck or below, Sunbrella makes it easy to create seamless designs that outperform the elements nautical mile after mile. Get ready to fall in love with the water all over again.

Add a retractable awning for sun protection throughout the day that also creates an elegant transition from indoors to out. Consider indoor and outdoor color palettes and then choose an awning fabric to tie the two together. Remember, you will see the underside of your awning, too, so choose a fabric that's just as pleasing from inside your home as from outside.

Shade never looked so refreshing

Having outdoor shade offers you more than a cool place to relax. It allows you to enjoy lunch on your deck. It creates a new place for kids to play. It even protects from harmful sun rays and can lower your energy bills, too.

Window awnings add a beautiful accent to a home's exterior while reducing heat gain. Drop-arm awnings lower nearly all the way down and can even block a light rain while allowing you to keep your windows open as was the purpose in this Pacific Northwest installation.

Consider pergolas and loggias to create custom shade. That way you can sit in the sun when you want while having a shaded retreat a few steps away.

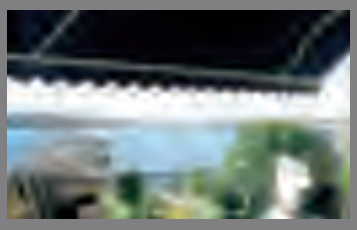
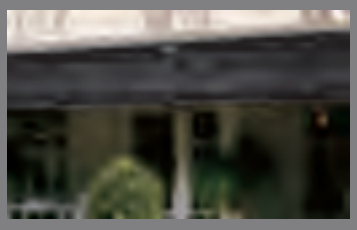
OTHER PRODUCTS AND FINISHES



SUNBRELLA
The premier performance fabric for awning and marine applications. With its legendary combination of durability, water repellency, breathability and beautiful style, Sunbrella® fabric is the perfect canvas for shading on land or at sea.

SUNBRELLA PLUS
A traditional Sunbrella awning and marine fabric with a durable polyurethane undercoating for superior water resistance. Sunbrella Plus uses standard Sunbrella colors for easy color coordination and is ideal wherever water resistance is essential.



SUNBRELLA CLARITY
For awnings that need to look their best but won't get regular cleaning, Clarity features a durable water-resistant polyurethane undercoating and a special finish that uses the natural elements of sunlight and rain to remove organic contaminants and stains such as streaks caused by roof run-off.

SUNBRELLA SUPREME
A luxurious, waterproof exterior marine fabric featuring Sunbrella canvas on the exterior face, and a special Sunbrella flocking on the reverse side. The unique bonding process creates a waterproof Sunbrella canvas with a beautifully soft headliner underneath.

SUNBRELLA® AND THE ENVIRONMENT

The Sunbrella team is committed to consistently and creatively conducting business in an environmentally responsible manner.

SUNBRELLA DURABILITY

Because Sunbrella fabrics last longer, people use less fabric and generate less waste as compared to other fabrics that might fade, lose strength or succumb to mildew and atmospheric chemicals.

SKIN PROTECTION

The Skin Cancer Foundation recommends Sunbrella fabrics in shading products as an aid in the prevention of sun-induced damage to the skin as a part of a complete sun protection regimen, including regular use of sunscreen.

GREENGUARD CERTIFIED

All Sunbrella and Firesist® fabrics are certified by the GREENGUARD Institute's Children and Schools standard for contributing to healthy indoor air quality by being a low emitting interior product.

REDUCING OUR CARBON FOOTPRINT

Projects such as the installation of a 500-kilowatt solar panel system at our Norlina Plant and the upgrade of all lighting fixtures in three warehouses reduce annual CO_2 emissions by over 1,000 tons.

ISO 9001 AND ISO 14001

Our ISO 9001 Quality Management and ISO 14001 Environmental Management certifications demonstrate commitment to providing exceptional products and services while recognizing our environmental responsibilities.

WASTEWATER REDUCTION

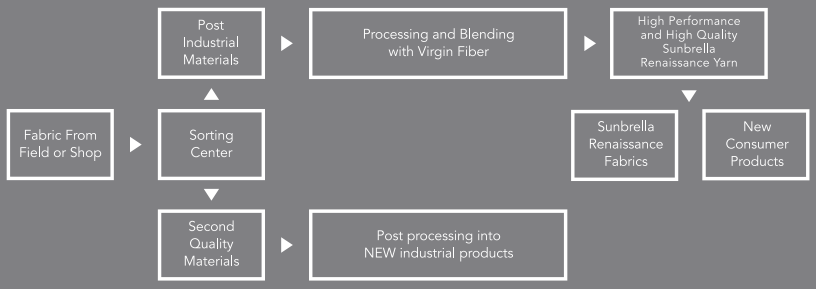
Our unique coloring process eliminates the harmful chemical effluents of conventional dyeing processes.

ZERO LANDFILL

Anderson is recognized as a member of the South Carolina Environmental Excellence Program as a result of our recycling and waste reduction programs. The Anderson team recycles all of its waste – including industrial materials, packaging, office and cafeteria waste.

SUNBRELLA RENAISSANCE FABRICS

Sunbrella Renaissance furniture fabrics combine up to 50% post-industrial recycled Sunbrella fiber with virgin Sunbrella fiber to achieve vintage charm, rich coloration, soft feel and excellent performance.



SUNBRELLA OFFERS RECYCLING SERVICE TO CUSTOMERS

For over 30 years, Sunbrella has recycled its industrial wastes such as yarn, fabric and packaging. As a result, Sunbrella's South Carolina Plant sends absolutely no waste to the landfill.

Sunbrella also provides a unique way for customers and consumers to recycle Sunbrella fabrics through a revolutionary take-back program called "Recycle My Sunbrella." For more information on our continuing commitment to sustainability and the environment, visit **www.recyclemysunbrella.com**.

SUNBRELLA RENAISSANCE FABRICS

Sunbrella® Renaissance fabrics were created with two objectives in mind: creating beautiful, vintage-inspired fabrics and recycling post-industrial fabric waste.

Introducing Unity, the first Sunbrella Renaissance awning fabric. Crafted for shade applications where subtle texture and distinctive detail creates a timeless charm, Sunbrella Unity is ideal for any awning.

CARE AND CLEANING

One of the best ways to keep Sunbrella fabrics looking good and to delay the need for deep cleaning is to rinse regularly with clear water to help prevent dirt from becoming deeply embedded in the fabric.

Sunbrella fabrics can be cleaned while still on an awning frame or boat top. Simply brush away loose dirt, rinse and clean with a mild, lukewarm soapy solution. Rinse thoroughly and allow to air dry.
For detailed cleaning instructions, **visit www.sunbrella.com/cleaning**.

10-YEAR LIMITED WARRANTY

This limited warranty protects the original purchaser from Sunbrella awning and marine fabric becoming unserviceable due to color or strength loss from normal usage and exposure conditions, including sunlight, mildew and atmospheric chemicals. The limited warranty coverage period is ten years from the date of original installation (five years for specialty fabrics Sunbrella Plus, Supreme and View).
For more information about the Sunbrella limited warranty, visit **www.sunbrella.com/warranty**.

ALL FABRICS ARE 100% SUNBRELLA® ACRYLIC. SUNBRELLA FABRICS ARE NON FIRE RETARDANT. DO NOT EXPOSE TO EXTREME HEAT OR FIRE.

1961

Revolutionary new Sunbrella® awning fabrics dramatically outlast cotton canvas.

Mid 70's

Sunbrella marine fabrics begin protecting boats and boaters worldwide.

Early 80's

Sunbrella casual furniture fabrics turn patios into outdoor rooms.

2002

Beautiful Sunbrella residential fabrics mean indoor furniture is now stress-free.

CELEBRATING

50

2011

Celebrated 50 years in the industry.

sunbrella®
