Our Patented System

Our revolutionary 'Single Track Design' allows for unparalleled coverage, ease of deployment and unrelenting protection from both the sun and rain. As demonstrated below, our canopy assembly suspends from the single track, producing a peak which forces rain to run off on either side of the canopy track. ShadeFX systems are engineered to operate without the need for a slope, providing a virtually flat installation. Our innovative solution facilitates even the most eclectic designs and tastes, while setting the new industry standard in outdoor space utility.

Welcome to ShadeFX.

WHERE IDEAS TAKE SHAPE

Southern Living

“For our design, less is more and your retractable canopies were the perfect fit. You seamlessly integrated into our project, without overpowering our design and provided the retractable protection we were looking for. Your team was knowledgeable and flexible. The solution worked well, our clients were happy, and we intend to use your solution for future projects!”

– Michael Rietta, Senior Associate Architect, Giannone Petricone Associates Inc. Architects

“Our back yard would be unusable without our new ShadeFX canopy. We can now relax and enjoy our patio in the blazing sun or pouring rain, and simply pull it back, to enjoy a nice night under the stars. It has added comfort inside our home and reduced our air-conditioning costs. No more dragging cushions in and out with the threat of rain. We love it.”

– Angela Larsen, Home Owner

“ShadeFX canopies work great and our clients love them. ShadeFX provides retractable protection that helps transform outdoor spaces without overwhelming our designs. We will continue to use ShadeFX for future projects!”

– Dan de Vries, Landscape Designer, Cedar Springs Landscape Group
