

ShadeFX™

Retractable Solutions for Outdoor Spaces

ShadeFX Freestanding Canopy

A Sleek, Modern Shade Solution

ShadeFX's newest product collection is the perfect poolside and BBQ area shade solution for those who have nothing in place and don't know where to begin.

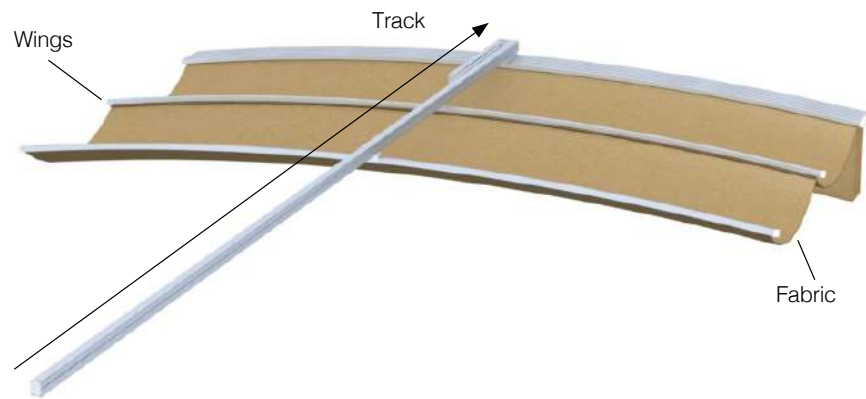

The two post shade system pairs our retractable canopy with a commercial grade aluminum frame. With multiple mounting and tilting options, and hundreds of fabric colours and patterns to choose from, adding a retractable shade with a pop of color has never been easier.

Our Patented System

Our revolutionary 'Single Track Design' allows for unparalleled coverage, ease of deployment and unrelenting protection from both the sun and rain. The shade assembly is attached to the single track, producing a peak which forces rain to run off on either side of the track. ShadeFX systems are engineered to operate without the need for a slope, providing a virtually flat installation. Our innovative solution facilitates even the most eclectic designs and tastes, while setting the new industry standard in outdoor space utility.

Welcome to ShadeFX.

Testimonials

“As this was our first encounter with ShadeFX, we took a cautious approach to their products. After engaging with them for a project in North York we knew right away that their service was of the highest standard. Questions we had about their products were answered quickly and effectively, samples were obtained for our client and their responsiveness to our needs were met immediately.

We used one of their newer products, a cantilevered shade canopy, and found that the product is an adaptable structure, especially in the residential market where tight spaces can make projects frustrating. Our order was fulfilled, and their team was effective in communicating and working with our construction teams to get the canopy installed on-site. Overall, as a company, I would highly recommend the ShadeFX brand to others within the industry for upholding the highest quality in their products and services!”

– Dan Thurtell, BLA, Solda Pools Design and Permit Team

“After researching many different sunshade options for our new backyard, we ultimately settled on large scoped umbrellas. Unhappy with the limited coverage, and instability under mildly windy conditions, we looked into alternative solutions.

Upon further research, we came across the ShadeFX Freestanding Retractable Canopy, it appeared to address all of our needs. After discussing its capabilities with ShadeFX, we decided to purchase three units. The ShadeFX service team carried out a site assessment and installed the units shortly after.”

– Dennis and Teja, Homeowners

“Thanks for the amazing Canopy! ShadeFX was completely professional, took the time to make sure we got exactly what we wanted and delivered it on time and for a great price! Would highly recommend ShadeFX to anyone looking for a canopy :)!”

– Jonny, Homeowner

Freestanding Canopy Price List

Freestanding Canopies are made custom to size and specifications. Pricing matrix indicates base canopy price for typical canopy sizes. Specify length and height to any dimension within 1/8"

For sizes not included in the pricing matrix, contact ShadeFX for more information.
